In Revolver 360 RE:ACTOR, you don't only have your bullets to save you. You're also armed with a powerful laser that pierces through weaker enemies, and a screen-clearing EMP. It's the exact kind of weaponry you're going to need if you hope to survive

Not quite sure how to complete a challenge? Challenge mode also has a dynamic hint system to help you learn how to properly surmount a challenge.

I want to like it but its just too chaotic, not really much skill involved, down to a lot of luck....needs to be more structured. Shame as it has potential, controls are nice but on screen its just a sh!t show, and not in a good bullet hell type way
